## BULL SALE

### 75 Day Feed Test

After weaning, the bulls are put on a 75 day feed test with a target of gaining 2.75 lbs per day.

The idea behind the feed test isn't to see how fast he'll grow and how fat we can get him, but to make sure he can convert the feed he's given into the pounds he's supposed to gain. Any bull that gained less than 2.5 lbs per day, is cut.

We feel that pushing the bulls for the sake of big numbers to print in the catalog only looks good on paper. It does nothing to add to soundness, fertility or longevity.

Keep in mind, while a 3lb ADG does not look impressive in some bull catalogs, he was only supposed to gain 2.75 lbs with what he was given.

### GENERAL INFORMATION

#### SALE LOCATION:

Winner Livestock Auction, 31690 Livestock Barn Rd, Winner SD

#### MOTEL ACCOMMODATIONS

Holiday Inn Express 1-605-842-2255

Super 8 1-605-842-0991

#### HEALTH

All bulls tested negative for Trich and BVD. A breeding soundness exam and semen test will be performed prior to the sale, by the Winner Animal Clinic of Winner, SD. The bulls have been vaccinated with 2 rounds of Virashield 5 and 2 rounds of footrot vaccine. All paperwork will be made available on sale day. Interstate health papers will also be provided.

#### Breeding Guarantee

All bulls selling for \$2,000 or above will be guaranteed against injury or disposition problems during the first breeding season. The breeding season will be defined as 90 days after you turn him out with your cows. If your bull gets hurt, take him to the vet, get him looked over and have the injury verified. Take him to the salebarn and sell him. The salvage value is yours to keep. Salvage value will be set at a minimum of \$1,000 dollars. Call me and I will send you a check for the balance or a credit in next years sale, which ever option you prefer. If you need a bull to finish out your breeding season I will provide you with one. You will need to come get him and bring him back at the end of the breeding season. Any bulls selling for under \$2,000 will have no guarantee. The salvage value is yours to keep. I do not guarantee the bulls against death.

#### Terms & Conditions

All cattle sell according to the standard terms and conditions of the American Angus Association.

#### Trucking

If you buy 3 or more bulls I will bring them back home and keep them free of charge until June 1st or your turn out date if you so desire.

If you buy less than 3 bulls I will bring them back home at a cost of \$1.50 per head per day until June 1st or your turn out day.

Please consider taking the bulls home on saleday. There are 20 miles of mud/gravel roads between my place and the hi-way. It's not easy traveling in the springtime, besides they've been here for two years and they don't like me anymore.

#### Liability

All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The owners, auction service, and sale staff assume no liability for property loss for any accidents that may occur.

#### Announcements

Announcements from the block will take precedence over the catalog. Buyers unable to attend may send their bids to the Auction Service, Field Reps, or Auctioneer.

## Welcome to the Eighth Annual Flying E Angus Ranch Bull Sale

There are around 5 good heifer bulls in the sale offering this year. Most of the genetics in the sale have a maternal slant to them, so if your building or breeding replacement females you should be able to find something you like.

The bulls in the sale offering are all coming two year olds. We feel that calving the cows in April & May and keeping the bulls until they are two is advantageous for us, but more importantly leaves a better bull when it is all said and done.

These bulls have been handled and developed slowly with pasture and patience. We've all bought yearling bulls that have been overfed and overdeveloped and had them fall apart over the course of the breeding season. We feel these two year olds are a more sound investment. These bulls haven't had feed pushed on them. They were weaned and fed a ration designed for a gain of 2.75 lbs/day. If they didn't make at least 2.5 lbs/day we cut them..

We believe the bulls in this sale have a balanced EPD profile, the genetics to make efficient mother cows, as well as leave you with a good set of steers.

The bulls will all have a breeding soundness exam, BVD, and Trich test prior to sale day. All the bulls are registerable and we will transfer the papers to you at no charge if you want them.

All are virgin bulls except 5 head that we're used here at home. They are noted in the catalog. Please keep in mind ALL the bulls have been Trich tested prior to the sale. The health on the bulls that have seen service will be the same as the virgin bulls. The only difference is they have "been there & done that". Maybe that's a good thing. All the bulls are out of AI sires.

Thank you and we hope see you on sale day.

Ryan Edwards

### CLEAN UP BULLS

Lots 4,8,10,13,19. These bulls had clean up duty here at home. They all passed their Trich test as well as their breeding soundness exam just like all the rest of the bulls in the sale. Their health is exactly the same as the virgin bulls. The only difference is these bulls have been out and bred cows and lived to tell about it.

*Amanda & Dale*
